

5 Reasons to vote YES on PROP 11

1

Tax Savings

LRB Public Finance Advisors determined that our new school district could result in tax savings relative to staying in Alpine School District.

2

Keep Strong Programs

Alpine School District continues to propose changing programs and closing schools across the district with little or no input from the impacted communities.

3

Improved Board Representation

Instead of only 2 board members, all 7 school board members would be residents of our 6 cities.

4

Focus on Our Community

We can ensure that our students and teachers have the resources and attention they need. We can control our own destiny.

5

Long-term Impact

This decision will have a long-lasting, positive, and beneficial impact on our community for generations to come.
